

Burris/Okazaki Exchange Program

The Japanese Exchange Program (JEP) between Burris Laboratory School and Okazaki Primary School, in Okazaki, Japan has been in place for more than 25 years. This program provides the opportunity to experience new culture, learn new language, meet new lifelong friends, get a “second family”, and build personal development. The goal of the JEP is to increase interest in cultural studies by experiencing an immersion in each other’s culture. We are raising funds

for the Japanese Exchange Program! Rather than the hassle of collecting orders, selling, collecting money, and then delivering those orders, we are simply asking for donations. We have an opportunity to have our funds matched dollar for dollar by Donors Choose. That means if you can secure a donation of \$10, that becomes \$20; \$20 becomes \$40; \$50 becomes \$100! By using donorschoose.org, we will get national exposure, and should secure additional donations beyond our contacts. For ease of giving, donorschoose.org accepts credit cards, Amazon Payment, PayPal, and even checks (if received during funding period). In addition, if your company matches charitable contributions, donorschoose.org qualifies as a 501c3 organization.

We are using these funds for transportation. During the exchange, Burris handles all transportation via Charter bus. While in Indiana, we cover all food costs and activities. Some of the activities include events like Ball State Football Game, Connor Prairie fieldtrip, Bowling, etc. Please use promo code **RIPPLE** at checkout to double donations up to \$50 for the next 7 days.
