Nature Play & Learning

2019 Summer Programs

We provide time for children to explore, create, build, design, problem solve, take risks, and use their imagination— all while experiencing the wonder of outdoor play. Our research-driven programs are designed to help children develop a range of school readiness and lifelong learning skills, while experiencing the therapeutic benefits of extended time in nature.

June 10-14: Think Tank Adventure 1
9:00-2:00 | \$225* Ages 8-12

This week is all about the SUN. Does your child like a good challenge? If so, this Think Tank Adventure is for them. We will be doing everything from creating sundials, to experimenting with sunscreen, to cooking with a solar oven. Did someone say ice cream? Yep, it's a challenge kids won't want to miss. Think Tank Adventure is a STEM (Science, Technology, Engineering, Math) inspired program with a series of activities designed to challenge participants on both an individual and group basis.

June 17-21: Fairy Tales & Friends Jr.
9:00-12:00 | \$135* Ages 3-5

June 24-28: Think Tank Adventure 2
9:00-2:00 | \$225* Ages 8-12

This week is all about WATER in our world. Children will problem solve through water play, bridge design, boat building and more! If your child enjoys messy play, this is the week for them. Their mind will be challenged, while fully engaging their senses in nature play. Think Tank Adventure is a STEM inspired program that encourages teamwork, cooperation, focus, and responsibility.

July 1-5: Fairy Tales & Friends

9:00-2:00 | \$225* Ages 5-8

Children will engage their imaginations as they enter the world of Fairy Tales. We'll be doing everything from building a Bear Cottage by re-creating the classic fairy tale *Goldilocks and the Three Bears*, to making musical instruments after hearing the story *The Bremen Town Musicians*. Every day is a new fairy tale for children to experience and lots of FUN!

July 8-12: Wild at Art

9:00-2:00 | \$225* Ages 5-10

Some of the most beautiful art is found in nature. This STEAM (STEM+Art) inspired program is designed for children to dive deep into learning about nature art while encouraging creativity, self-expression and fun in nature. Each day, children will engage in nature-based discoveries that will inspire hours of play while creating an artistic masterpiece!
